

# Liebert GVG3 UPS for Dell Federal Customers

- TAA trade compliant power protection
- Available via the Dell GSA schedule

A true on-line UPS that delivers continuous, high-quality AC power to IT equipment with no break when transferring to battery. It protects equipment from virtually all power disturbances.

## Critical Features for Critical IT Needs

Combining small size, capacity, flexibility, intelligence and resiliency into an integrated system.

- On-line design means zero transfer time from external to internal power.
- Critical loads remain supported by a seamless flow of protected power.
- High power factor of 0.9 allows for more efficient utilization of the UPS.
- The UPS provides easy serviceability with hot-swappable batteries.
- Exclusive Power Assurance Package offers service and support advantages.
- Selectable Eco-mode feature offers additional energy savings.
- Network intelligence offered through the Liebert IS-Web Card for secure (IPv.6) for multiple protocol communications.
- TAA Trade Compliance across 1000, 1500, 2000 and 3000 VA 120V capacities

*Liebert GVG3 UPS shown in rack-mount orientation.  
Can also be configured in a tower orientation.*

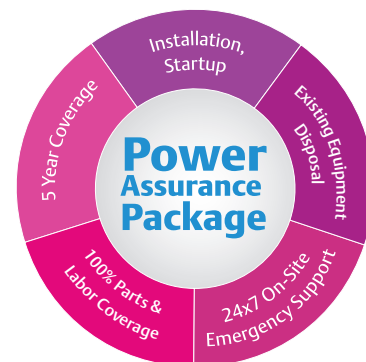

# Liebert GVG3 UPS for Dell Federal Customers
